

application: **liquids** **high viscosity fluids**

Sampling Valve

Piston valve / type 655M

Sampling valve

Piston valve

Features

- Horizontal and vertical mounting
- Cast body in 316 Stainless Steel (ASTM A351 CF8M)
- Polished piston in 316Ti Stainless Steel
- Outlet angle: 30°
- Outside rising stem with opening indicator
- Seats and stuffing box packing in PTFE glass
- 3/4" NPT-M inlet x 1/2" NPT-F outlet
- PED 97/23/EC compliant

Competitive advantages

- Direct in-line sampling
 - ⇒ Genuine sample
- Flush closing piston
 - ⇒ No retention area
- Adjustable piston extension (0-25-50 mm)
 - ⇒ Flexible design to fit customer requirements
 - ⇒ Crust-breaking position
